

Joan 6 Pro

The next generation,
enterprise-level meeting
room booking device

As businesses all over the world are returning to a landscape of changed dynamics, Joan 6 Pro is here to manage your business's evolving needs for space and employee management.

Designed as the industry's best way to **handle massive amounts of meeting rooms and conference spaces**, its features do wonders for SMBs, as well. Whether your enterprise juggles a staggering amount of meeting rooms or just a handful, Joan 6 Pro solves your pain points with style.

Scheduling conflicts disappear with on-the-spot booking, calendar interoperability, and clear, unambiguous displays. As a result, teams both large and small are empowered to focus on the course and content of their meetings, with no worries about meeting room availability.

Works seamlessly with

A Powerful ePaper Device

Joan 6 Pro is a meeting management device with the highest levels of security. The devices themselves are sleek and unintrusive, with clean lines that compliment any space where they're installed.

Their intuitive, user-friendly interface meanwhile flattens learning curves and cuts time spent on onboarding to mere minutes.

The key to efficient time and infrastructure management

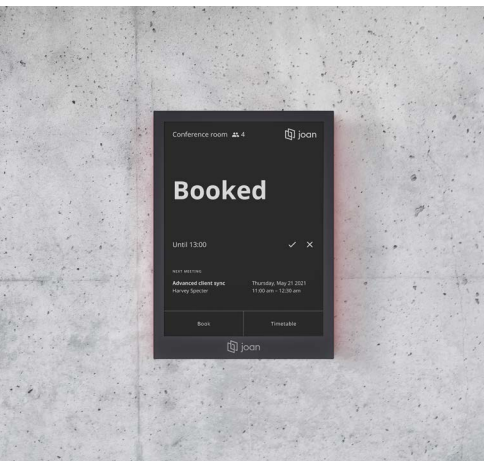

One problem common to many enterprise-scale booking solutions is keeping track of room-specific information. If a dedicated device gets misplaced, a business can suffer costly setbacks in clearing up the confusion. Joan 6 Pro tackles this concern head-on in two ways, depending on your business's requirements.

Smart Magnets

Room-specific devices a thing of the past

Each room is outfitted with its own **Smart magnet**, which attaches to any surface and acts as a **location tag**. As soon as a Joan Pro 6 device is anchored to one of these magnets, it automatically reconfigures to display that room's dedicated information. The same device can be used for an office announcement in the morning, then moved back to a conference room mid-day, and no information will ever be erased or misplaced. The smart magnet option harnesses both **2.4 and 5 GHz Wi-Fi** for the best possible stability.

Power over Ethernet dock

Safe and stable, always charged

This option is an absolute must for enterprises with extra stringent security protocols. Wiring Joan 6 Pro devices into a fixed place solves a few problems simultaneously. The most important of them is the need that some organizations have for beefed up IT security. Any information that can't risk being leaked over a wireless must be **doubly protected** by keeping it on an ethernet network, and the PoE option solves this handily. Added benefits include **constant device power** and the physical inability for a device to wander off. PoE also allows for dual LEDs, green and red, to **permanently communicate room occupancy**.

Always Environmental

Sustainable bottom lines and sustainable design

Joan is the first to call on enterprises to strive for sustainability both in their financial operations and their environmental approach.

The new generation follows Joan's legacy of insisting on **recyclable components** and ultra low-power architecture. Stats like **6 months of battery on a single charge** or a whole year on mere pennies of electricity make for a device that is **100 times more efficient** than competing solutions. Joan brings a sigh of relief to anyone managing workspace availability and anyone demanding sustainability. The best business is clean business.

Technical specifications

Calendar compatibility

- Google Workspace
 - OAuth2 authentication
- Office 365 (Exchange Online)
 - OAuth2 authentication (Global Admin)
 - Basic authentication (Delegated User)
- Microsoft Exchange (Outlook)
 - NTLM proprietary authentication protocol
 - Basic authentication
- Accruent EMS
- iCalendar (.ics)

Display

- 6-inch (4:3 diagonal) interactive touch E Ink® electronic paper screen
- Full capacitive touch screen interface
- Portrait view
- High visibility and contrast (surface treatment: anti-glare hard-coated front-surface)
- 180° viewing angle
- Resolution: 1024 × 758 pixels
- Active Area (H/W): 3.57 × 4.82 in (90.581 × 122.368 mm)
- Pixel Pitch (H/W): 0.005 × 0.005 in (0.1195 × 0.1195 mm); equivalent to 212 ppi
- Pixel Configuration: Square
- 16 level grayscale
- Refresh rate: 750 ms (4 bit full screen) – 100 ms (1 bit partial)
- Front light

Environmental conditions

- Operating and storage temperature range: 32°F to 113°F (0°C to +45°C)

Power

- Patented ultra low energy architecture, only 1% of the power used by LCD.
- High performance rechargeable Lithium-Polymer 5,400 mAh battery, 3.46 oz (98 g).
- Up to 6 months of autonomy on a single battery charge. 5–7 hours charging time with a USB-C charger (output rating of 5 V, 1 A).
- Enclosed USB-C charging cable
- Cordless functionality
- PoE compatible

Connectivity

- 2.4/5 GHz Wi-Fi (IEEE 802.11 a/b/g/n) standard, WPA2-PSK, WPA3 Personal, WPA2 Enterprise support
- 2.4 GHz Bluetooth 5 support
- Ethernet via optional PoE wall-mount (IEEE 802.3u) standard
- Optional wall mounted PoE-dock, that provides wired network connectivity (and Power over Ethernet) as well as shows the room occupancy status (green for free and red for booked).

Mounting

- Attachable to any surface with a self-adhesive Smart Magnetic Mount for Joan 6 Pro that requires no tools (one included with each device) and that enables device configuration after charging (no need to exactly match the device and the meeting room anymore).
- Optional wall mounted POE-dock with LED room occupancy indicator

Data security

- TLS 1.3 encryption

Casing

- High quality anodized aluminum casing
- Anti-reflective, high transmissive glass
- Color: Black, Gray

Dimensions & weight

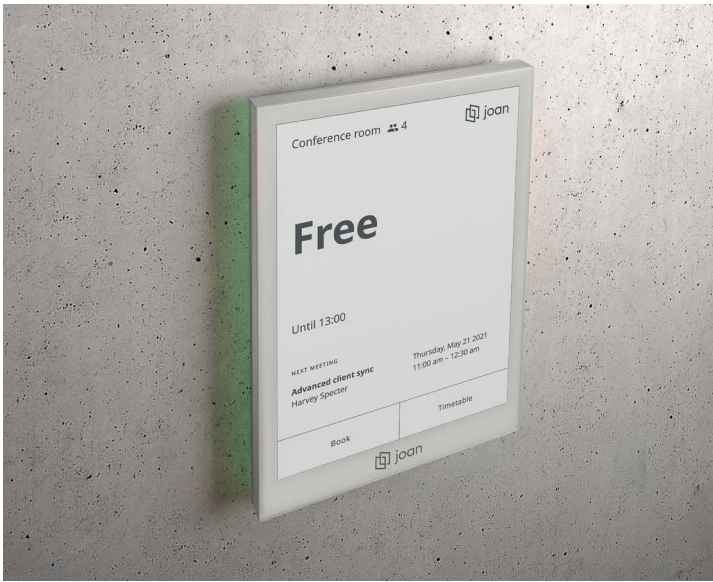

- Joan device dimensions: 4.10 × 5.63 × 0.44 in (104.2 × 142.9 × 11.1 mm)
- Weight of Joan 6 pro: 11.36 oz (322 g)

What's in the box

- All required hardware, software, unlimited updates, upgrades and free lifetime support are included, as well as a one-year Limited Warranty.
- The box includes:
 - 6-inch Joan 6 Pro device
 - USB-C cable
 - Onboarding information
 - 1 Smart Magnetic Mount for Joan 6 Pro
 - Access to the Joan Web Portal

Warranty

- 1 year

A User-Centric Solution

All Joan 6 Pro devices work in tandem with the **Joan Room subscription** to form a robust synergy. With unparalleled flexibility in how to reserve a meeting space, teams can book from their desktop, phone, or right on the device itself.
